## OBJECTIVE

Motivated MCA student (Expected 2026) with strong foundations in Java, JavaScript, and full-stack development using React, Spring Boot, Express.js, and modern databases. Seeking an entry-level Full Stack / Software Developer role where I can apply my problem-solving skills, build scalable real-world applications, and continuously enhance my technical expertise while contributing to organizational growth.

## EDUCATION

- RCC Institute of Information Technology, MCA (Master of Computer Applications) | Sep 2024-26
- The University of Burdwan, BCA (Bachelor of Computer Applications) | Nov 2021-24

## SKILLS

- **Programming Languages:** Java, JavaScript, C.
- **Front-end Technologies:** HTML5, React JS, CSS, Bootstrap.
- **Back-End Technologies:** Express JS, Java Spring Boot.
- **Databases:** MySQL, MongoDB, Redis.
- **Tools & Platforms:** Git, GitHub, Visual Studio Code, IntelliJ Idea.

## PROJECTS

### Swiggy Clone Application [Tech Stack – React JS + Tailwind CSS]

- Built a Swiggy Clone using React JS, integrating Swiggy Live API to fetch and display real-time restaurant data;
- implemented Redux Toolkit for cart state management, utilized React Hooks (useState, useEffect), and added a shimmer effect to enhance UI/UX during data loading.

### Blood Bank Management System

Developed a Blood Bank Management System enabling real-time donor and blood inventory management. Implementing secure REST APIs for data exchange and a responsive UI for seamless user interaction.

**Tech Stack:** **Front-end:** React, Tailwind CSS; **Back-End:** Spring Boot; **Database:** MySQL.

**Team Members:** 4

### Coding Platform

Developing an online Coding Platform where Various problem will be given and a user can solve the problem. Used Jude0 API to test the Solution.

**Tech Stack:**

**Front-end:** React, Tailwind CSS. **Back-End:** Express JS. **Database:** MongoDB, Redis

### BOOKLOVERS – AI Enabled Online Book Shop Platform

Developed an AI-powered online bookstore with personalized book recommendations, secure user authentication, smart search, and online book purchasing features.

**Tech Stack:**

**Front-end:** React, Tailwind CSS. **Back-End:** Express JS, **Database:** MongoDB. **AI Integration:** Google Gemini API

**Hobbies:** Playing video games, making web projects, learning new technologies.
